As a result of an error by the authors, in the paper “Weak gravitational lensing of quantum perturbed lukewarm black holes and cosmological constant effect” by Ghaffarnejad & Mojahedi (RAA 2017 Vol.17, No.6, 52, doi: 10.1088/1674-4527/17/6/52), an error in a reference occurred: the references for Equation (18), i.e. (Bozza V. 2008, Phys. Rev. D, 78, 103005; Keeton C. R. and Petters A. O., 2005, Phys. Rev. D, 72, 104006), should be replaced by (Virbhadra K. S. and Ellis G. F. R., 2000, Phys. Rev. D, 62, 084003). This reference should be added to the lens diagram of Figure 2.
